**INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56 and 37 CFR §1.97**

Commissioner for Patents
Washington, D.C. 20231

Sir:

Submitted herewith on Form PTO SB/08 is a listing of documents known to Applicant in order to comply with Applicant's duty of disclosure pursuant to 37 CFR 1.56. A copy of each listed document is being submitted to comply with the provisions of 37 CFR 1.97 and 1.98.

The submission of any documents herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a prima facie prior art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The instant Information Disclosure Statement is believed to be filed in accordance with 37 C.F.R. 1.97(b), prior to the mailing date of a first Office Action on the merits (first scenario). If that is not the case, such as in a second scenario in which a first Office Action on the merits has been mailed before the filing of the instant Information Disclosure Statement, then either a certification or fee is required, and a certification is provided below. If neither of the first or second scenarios is the case, such as if a final Office Action or a notice of allowance has been mailed by the PTO (third scenario), then both a certification and fee are required, and in that case a certification is provided below and also the PTO is authorized to obtain the necessary fee to have the instant IDS considered, from Foley & Lardner Deposit Account #19-0741.

CERTIFICATION

The undersigned hereby certifies in accordance with 37 C.F.R. §1.97(e)(1) that each item of information contained in this Information Disclosure Statement was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to the filing of this Statement.

RELEVANCE OF EACH DOCUMENT

A translation of a portion of a Japanese Office Action that issued March 11, 2003 with respect to a counterpart Japanese patent application is provided below.

"Claims: 1 through 6

Cited Literature: 1 through 3

A well-known technology to practitioners of the art is a configuration that provides a clock production unit on the transmission and reception sides respectively and transmits and receives data with the local clock as the standard, wherein it is possible to control the frequencies of the transmission side clock and the reception side clock and make them agree so that data is transmitted without error. (For example, refer to Cited Literature 1 through 3.)

Moreover, also well known to practitioners of the art are data transmission systems that transmit audio and video data using asynchronous transmission circuits. (If necessary, refer to Cited Literature 4, etc.)

Consequently, the invention related to Claims 1 through 6 of the present application could be easily conceived by a person skilled in the art based on the well-known technologies described in Cited Literature 1 through 4.

If new reasons for rejection are discovered, notification will be given of the reasons for rejection.
